Competitive Components, Inc.
105 E. Brooks Ave.
N. Las Vegas, NV. 89030

Dear Sir or Madam:

As a buyer, I have been doing business with Competitive Components for many years. I started using Competitive Components as a supplier in 1995, while working for Sierra Digital. I went to work for U.S. Systems in late 1996 and again Competitive Components was one of my main suppliers. I have been with Optical Solutions since September 2000 and once again I depend on Competitive Components to supply us with parts. Competitive Components has on time delivery and very good pricing. The main reason that I keep coming back to Competitive Components is the great service.

Sincerely,

A handwritten signature in cursive script that reads "Betty Frazer".
